

Creating an Edible Landscape

Hosted by:

Thoughtfully incorporate edible plants into your landscape – from annual veggies and herbs to perennial berries and fruit trees.

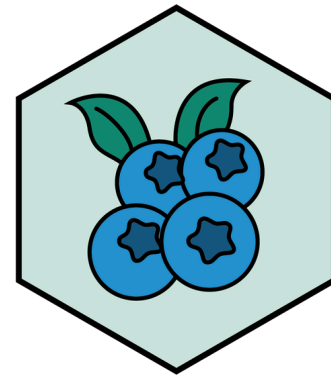

Join **East Multnomah Soil and Water Conservation District** and **Columbia Slough Watershed Council** to learn how to design an edible landscape, build fertile soil, and conserve water, while producing a harvest of veggies, herbs, berries, fruits, and native plants with edible fruit and nuts.

Wednesday, March 12 2025

6 - 8:30 PM

**at Double Mountain
Overlook Taproom**

**1700 N Killingsworth St
Portland, OR 97217**

To register for this workshop and learn more about our workshop offerings, visit emswcd.org/workshops

If you need any special accommodations to fully participate in the workshop, please email cat@emswcd.org. To better serve you, six (6) business days prior to the event is preferred.
