

Intro to Stormwater

Hosted by:

SymbiOp
For People and Planet

Did you know that what you do at home and in your neighborhood can help improve the health of local waterways?

Join **East Multnomah Soil and Water Conservation District** and **SymbiOp** to learn about the sources and effects of urban stormwater pollution, how to help slow the flow of rainwater and how to make every drop count for you and the environment! From lawn alternatives to de-paving, there are many ways to beautify your neighborhood and your watershed!

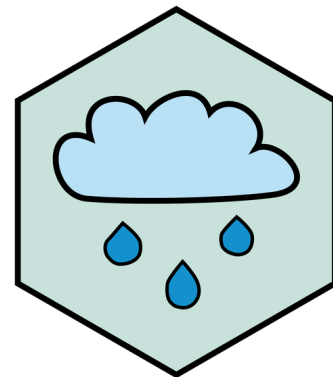

Wednesday, March 26 2025

6:30 - 8 PM

at SymbiOp Garden Shop

3454 SE Powell Blvd

Portland, OR 97202

To register for this workshop and learn more about our workshop offerings, visit emswcd.org/workshops

If you need any special accommodations to fully participate in the workshop, please email cat@emswcd.org. To better serve you, six (6) business days prior to the event is preferred.
